Notes & Reflections

Parent Notes:

Student Comments (optional):

How to Use This Checklist

-  **Tick off each task as you go** — keep it stress-free!
 -  **Keep it flexible:** Adjust tasks to your child's level each week.
 -  **Save copies** for your portfolio or transcripts. Some states require records — check HSLDA.org if you're not sure.
-

Tips for Parents

- I'd recommend adding real-life tasks, chores, or extra activities.
 - If your child loves visuals, turn this into a sticker chart.
 - For big projects, pair this with a simple rubric.
-

Print a new sheet each week or duplicate it in Google Docs.

Save filled checklists in a binder — trust me, they're a lifesaver during portfolio reviews!

Our Free Tools to Simplify Homeschool Grading

Tired of spreadsheets and guesswork? Try our **free, easy-to-use calculators** made just for students and homeschool parents:

[Grade Average Calculator](#) — See your course grade from quizzes, tests, and projects

[Final Grade Calculator](#) — Find out what you need on your final exam
